WELCOME TO 360 YEARLY

About 360 YEARLY

360 YEARLY is published yearly to provide CYFD management, staff, and external partners with data on:
- Reports of child abuse and neglect
- Investigations of child abuse and neglect
- Substantiated cases
- Permanency plans for youth in custody
- Plans for reunifications
- Number of youth in foster care

These data can be used to inform New Mexicans of trends in a particular area and where support may be needed. Data can also indicate positive outcomes in an aspect of the system in a particular county or region. 360 YEARLY is a tool that helps bring data to inform the prevention and treatment process.

About the Data

Data for the County Profiles is prepared through the collaborative efforts of the Data Evaluation Unit and FACTS Unit within the Research, Assessment and Data Bureau and Information Technology Services, with the assistance and guidance of the U.S. Department of Health and Human Services, Administration For Children and Families, Administration on Children, Youth and Families, Children's Bureau.

About Protective Services

Protective Services strives to enhance the safety, permanency and well-being of children and families in New Mexico. Protective Services workers investigate reports of child maltreatment and intervene to keep New Mexico's children safe. We provide foster care to thousands of children and work with families to enable parents to safely care for their children. When that cannot be accomplished, Protective Services workers find safe, permanent families for children through adoption or permanent guardianship. Protective Services also works with youth emancipating from the foster care system to assist them in successfully transitioning into adulthood.

STATEWIDE SUMMARY

A SNAPSHOT OF OUR CHILDREN

All of New Mexico's children are our priority. We work to make sure that every child is safe from abuse and neglect. We also work to strengthen families so that they are safe, healthy and resilient.

For children in CYFD care, we track their progress through our FACTS data system. This report focuses on children in CYFD care and their parents and guardians.

The pages to follow will focus on the levels of reports of abuse and neglect, the unsubstantiated and substantiated investigations, permanency planning, and children in care awaiting adoption.

360 YEARLY is published to support our entire workforce, including external and internal partners, in viewing trends and progress made toward measurable objectives in each county office. The report is designed to be used by many populations:

- CYFD Workforce
- Community Partners
- Policymakers
- General public interested in child welfare and the safety of our children

TRENDS & COMPARISONS

Learning from Trends

360 YEARLY provides all New Mexico residents with data to better understand the status of child abuse and neglect, as well as the response from Protective Services. The data illustrate trends over time to provide a way to view progress and to assess challenges.

Comparing and Contrasting

The report also breaks the data down by regions so that the reader may compare and contrast the data between regions and compare regions to state.

The goals are to generate dialogue, assess the needs of counties and regions, and learn from each region.

Using this Guide

The RAD (Research, Assessment and Data) Bureau designs this publication to be used by community partners and in county office progress meetings so that every office staff member knows how local work is progressing and what form of continuous quality improvement can address challenges.

Notes:
1. An Unknown county report is a report that did not contain a zip code at the time the report was entered into the Family And Child Tracking System (FACTS).
2. Accepted Reports are comprised of reports of alleged child maltreatment with sufficient basis to receive a subsequent investigation by CYFD staff.
3. Not-Accepted Reports are comprised of reports of alleged child maltreatment with insufficient basis to receive a subsequent investigation by CYFD staff and may include duplicate reports.

Note: Reasons for non-acceptance of a report may include:
- No specific allegation/risk of abuse/neglect,
- Insufficient information to investigate,
- Referral to another agency,
- Does not meet sufficiency screening criteria,
- Perpetrator is non-caretaker/out-of-home,
- Referral to law enforcement, and/or
- Duplicate reports.

"Substantiated" in a child abuse and/or neglect investigation means the victim(s) is under the age of 18, a parent/caretaker has been identified as the perpetrator and/or identified as failing to protect, and credible evidence exists to support the conclusion by the investigation worker that the child has been abused and/or neglected as defined by the New Mexico Children's Code.

"Unsubstantiated" means that the information collected during the investigation does not support a finding that the child was abused and/or neglected as defined by the New Mexico Children's Code.

Reunification

Figure 1. Percent of children reunified with their natural families in less than 12 months of entry into care: This line graph illustrates a strategic planning measure: Continue to develop and utilize program strategies which identify factors which contribute to the timely and appropriate return of children to their homes.

Re-entry

Figure 2. Percent of re-entering foster care in less than 12 months: This line graph illustrates a strategic planning measure: Continue to develop and utilize program strategies which identify factors which contribute to the timely and appropriate return of children to their homes without increasing reentry into foster care.

Placement Stability

Figure 3. Percent of children in foster care for up to 12 months with no more than two placement settings: This line graph illustrates a strategic planning measure: Continue to develop, upgrade and utilize program strategies that identify and address factors that contribute to the stability of children in out-of-home placements.
