

# ***Nature-based inquiry: Wondering in Nature with Young Children***

***Facilitated by: Mary Bliss, M.Ed.  
Thursday, February 10, 2022, 6-7:30  
&  
Thursday, April 4, 2022, 6-7:30***

***Presented by the Santa Fe Community College  
Early Childhood Mentor Network***

## **Please RSVP: [Click Here](#)**

(ZOOM invite will be sent before the first workshop)

**This two-part online series focuses on the role  
of the teacher in inquiry-based learning in  
nature.**

**The workshop will cover teachers as co-  
researchers with young children focusing on:**

- **observation and documentation**
- **preparing the environment**
- **planning the studio space for inquiry**
- **creativity and social interaction**

Mary Bliss, M.Ed, has been active in early childhood education throughout her career in NM. Pedagogy that inspires imagination and encourages expression in young children through science and art is her passion. She uses documentation to teach and collaborate with others. Mary co-authored the chapter, 'Ever Changing Big Skies' in the book *Beautiful Stuff in Nature*.
