Upon receipt of the final results of the investigation, the department may take such further action as is supported by the investigation results.

C. A suspension, revocation, or conditions of operations imposed pursuant to Subsection A of this Section may take effect immediately if in the discretion of the department, the health, safety or welfare of a child is at risk.

D. The Early Childhood Education and Care Department notifies the licensee in writing of any action taken or contemplated against the license/licensee. The notification shall include the reasons for the department's action.

E. The licensee may obtain administrative review of any action taken or contemplated against the license/licensee.

F. The administrative review shall be conducted by a hearing officer appointed by the department's secretary.

I. If the contemplated action does not take immediate effect, and the licensee is given advance notice of the contemplated action, the licensee is allowed 10 working days from date of notice to request an administrative appeal.

J. In circumstances in which Public Health Act, Subsection N of Section 24-1-5 NMSA 1978 (2005) may apply, and in which other provisions of this regulation are not adequate to protect children from imminent danger of abuse or neglect while in the care of a licensee, the provisions of Subsection N of Section 24-1-5 shall apply as follows.

(1) The department shall consult with the owner or operator of the child care facility.

(2) Upon a finding of probable cause, the department shall give the owner or operator notice of its intent to suspend operation of the child care facility and provide an opportunity for a hearing to be held within three working days, unless waived by the owner or operator.

(3) Within seven working days from the day of notice, the secretary shall make a decision, and, if it is determined that any child is in imminent danger of abuse or neglect in the child care facility, the secretary may suspend operation of the child care facility for a period not in excess of 15 days.

(4) Prior to the date of the hearing, the department shall make a reasonable effort to notify the parents of children in the child care facility of the notice and opportunity for hearing given to the owner or operator.

The licensee shall notify the licensing authority within 48 hours of any adverse action by the national accreditation body against the licensee's national accreditation status, including but not limited to expiration, suspension, termination, revocation, denial, nonrenewal, lapse or other action that could affect its national accreditation status. The licensing authority shall reduce the star level of a provider granted national accreditation status by the department to star level 2 until the licensee regains national accreditation status, or until the facility can be verified at a level higher than star level 2. If a provider holding accreditation from an accrediting body no longer approved by ECECD fails to maintain these requirements, this will result in the provider reimbursement reverting to the base reimbursement rate. The provider may increase their star level only by meeting FOCUS criteria or by attaining ECECD approved national accreditation status. Child care subsidies shall be adjusted to correspond with any reductions or increases to star level.

The base penalty is assessed once for the deficiencies cited by the licensing authority during any particular survey or investigation.

C. The licensing authority has the discretion to impose an initial base penalty at any amount within the range for each deficiency level.

- (1) Class A deficiency: not less than \$500 and not greater than \$5,000.
