APPENDIX A – 2026-2027 SATURATION PERCENTAGES BY SCHOOL DISTRICT 20

BACKGROUND AND PURPOSE

The New Mexico Early Childhood Education and Care Department (ECECD) administers the New Mexico Prekindergarten (NM PreK) program, a high-quality program that is available to all families residing in New Mexico with eligible 3- and 4-year-old children, regardless of income. The NM PreK program provides voluntary, quality PreK to support children’s development and school readiness. PreK program funding is awarded to eligible providers, including tribal providers, licensed child care centers, licensed child care homes, Head Start programs, school districts, and/or charter schools through this competitive grant opportunity. ECECD monitors the eligible providers granted awards for compliance with the NM PreK Standards.

Pursuant to NMSA 1978, § 9-29-8(B), ECECD is mandated to “coordinate and align an early childhood education and care system to: (1) include child care, pre-kindergarten, early pre-kindergarten, home visitation, Early Head Start, Head Start, early childhood special education and early intervention and family support; and (2) provide New Mexico families with consistent access to appropriate care and education services.” The NM PreK program is a key part of the state’s early childhood education and care system, providing high-quality, voluntary PreK experiences to preschool-aged children regardless of income. **ECECD is seeking applications from eligible providers to renew, expand, or create new PreK slots and classrooms statewide, especially in areas of the state where there is a lack of high-quality PreK for children and families.**

ECECD awards PreK Grants for up to three years contingent upon available funding and the grantee's continued compliance with the NM PreK Standards. If an eligible applicant applies for and is awarded an expansion grant, its existing award will be amended, and the expansion will have the same terms as the eligible applicant's existing award.

This Notice of Funding Opportunity (NOFO) outlines requirements for the Fiscal Year 2027 (FY27) NM PreK Application. ECECD will consider all complete and timely applications for funding and awards will be made based on the criteria below, contingent upon available funding. ECECD may adjust the number of slots awarded based on funding availability, saturation, mixed delivery, diversity, geographic needs, existing NM PreK providers in good standing, and other considerations.

"Saturation" refers to the ratio of Head Start and New Mexico PreK slots available within the geographic boundaries of a school district compared to the number of 3- and 4-year-old children residing in that school district. For example, a school district with 100 eligible children residing in its geographic boundary and 80 funded PreK slots for 4-year-olds (NM PreK and Head Start combined) would have an 80 percent saturation rate for 4-year-olds. Saturation rates are calculated for both 3- and 4-year-olds.

Applications will be categorized by school district area from the highest scoring application to the lowest scoring application. Applications for each district will be considered by score. Additionally, the following considerations may inform awards regardless of score:

- Program type
- Saturation rates by age group
- Location of program
- Mixed delivery system
- Status of existing NM PreK provider (Corrective Action Plan/Conditions of Operation/Vacancies)
- Geographic proximity to an existing NM PreK program
- Community distribution of 3- and 4-year-old full time child care assistance contracts

The highest scoring applications within each school district geographic boundary will be selected for funding until saturation capacity has been met based on descending order of application scores or funding is exhausted.

- **Priority 1:** NM School district areas with saturation rates of 80% or less for 4-year-old children
- **Priority 2:** NM School district areas with saturation rates of 50% or less for 3-year-old children
- **Priority 3:** NM School district areas with saturation rates between 51% and 80% for 3-year-old children
- **Priority 4:** NM School district areas with saturation rates between 81% and 100% for 4-year-old children

SECTION I – ELIGIBILITY

Eligible applicants for the FY27 NM PreK Grant include the following:

- Local Education Agencies (LEAs) or state charter schools;
- Child care (center and home-based) programs currently licensed by ECECD pursuant to 8.9.4 NMAC;
- Tribal early childhood education programs;
- Head Start programs (Region 11 (Tribal) and Region 6); and
- Schools operated by the U.S. Bureau of Indian Education (BIE).

FY27 NM PreK eligible applicants must be seeking funding to create a new PreK program, renew an existing PreK contract or grant award, or expand the number of children served in an existing NM PreK program. All eligible applicants must be in good standing with its respective regulatory authority, which is ECECD, the New Mexico Public Education Department (PED), or the applicable federal agency for tribes and Head Start. Programs must disclose as part of their application if they are currently on a Condition of Operation (COO) or Corrective Action Plan (CAP).

Programs eligible for NM PreK funding in FY27 must first enroll all age eligible 3- and 4-year-olds children in a state funded NM PreK classroom before serving them through an ECECD Child Care Assistance contract. Programs must also ensure that NM PreK funds are used whenever applicable before relying on Child Care Assistance funding.

All PreK providers are required to enroll eligible children on a continuous, year-round basis, without exception, regardless of the proximity to the end of the program year.

SECTION III – FUNDING

FUNDING IS SUBJECT TO CURRENT AND FUTURE APPROPRIATIONS FROM THE NEW MEXICO LEGISLATURE FOR THE PERIOD OF THE GRANT AWARD. *No guarantee is made or implied by the state of New Mexico or ECECD as to the amount allocated to this grant of award. This grant process will result in multiple awards. The funding available through the grant is for state-funded PreK and early PreK services. Ececd reserves the right to fund partial requests.*

ECECD will reimburse for NM PreK services in accordance with the per-child reimbursement rates set forth above. Rates are non- negotiable and subject to change. Final rates for FY27 may increase depending on appropriations but will not decrease from the rates posted in this NOFO. ECECD will calculate the total compensation available during the grant period by the number of children served per eligible applicant type and then multiplied by the appropriate rate. Depending on the size of the award, programs may be subject to an annual audit requirement. Depending upon available funding, ECECD may adjust the per child rate in future years and any such changes will be implemented through an award letter amendment as needed.

ECECD will set aside a limited amount of funding for:

- **Transportation – \$1,000 per child, per fiscal year.** ECECD may award this funding if the program has the capacity to transport children enrolled in NM PreK to and from the program and, for community-based providers, obtain licensing approval from ECECD pursuant to 8.9.4 NMAC to do so.
- **Start-Up and Safety – Up to \$25,000 per classroom for supplies and equipment, and an additional \$5,000 per classroom for curriculum materials to equip a new PreK classroom.**

Each eligible proposal will be reviewed by a panel of at least three reviewers. Each reviewer will score the proposal according to the indicated point criteria in the NOFO. Scores from each reviewer will be averaged to compute the final score. If there is a difference of more than 15 points between the reviewers' scores, the two closest scores will be averaged to compute the final score. Awards will be made starting with the highest scoring proposal in rank order for each school district area. In the event of tied scores, proposals with the highest combined score on "Define the Need for High Quality NM PreK Services" (Section 3A) will be ranked higher. If a tie remains, the proposal with the highest combined score on "Collaborative Efforts to Ensure the Full Participation of Each Child" (Section 3D) will be ranked higher.

SECTION VI – GRANT AWARD PROTEST PROCEDURE

Applicants who receive a notice of non-award may protest the ECECD award decision subject to the following:
