

## FOCUS Training Waiver for Department of Defense

In an effort to streamline requirements for our Department of Defense (DoD) affiliated child care providers, ECECD has waived three professional development trainings required by the FOCUS quality rating and improvement system. These trainings are waived for all providers that are held to DoD training requirements, and who are already required by DoD to complete substantively similar professional development.

### Waiver issued for the following trainings:

- Powerful Interactions
- The Full Participation of Each Child
- Quality Early Childhood Programs for ALL
